

SOUP BOWL SET

SPILL-PROOF DESIGN

HOSPITALA

INSULATING SET FOR SOUP BOWLS IN SPILL-PROOF DESIGN

The perfect solution for problematic transport routes, including off-facility distribution.

- Spill-proof design due to inside splash groove, prevents soups from slopping out during difficult transport situations, including off-facility distribution.
- Optimum heat retention for soups, purées, etc. over long period of time.

- Soup bowls are easy to insert and remove, making handling simple.
- The high-quality finish ensures durability and an attractive look.
- All components are available in a wide range of colours.

SOUP BOWL SET

SPILL-PROOF DESIGN

HOSPITALA

TECHNICAL FEATURES:

- Thermoplastic insulating set, double-walled, insulated, homogeneously welded, with CFC-free special foam.
- Insulating cover in two-colour design, dark side of the cover avoids visible discolourations caused by food with intense colour pigments.
- Coloured granulate can be used for uniform through-colouring. This also helps prevent colour fading.
